District Manager, USPS

Diane Simpson
CFC Director
United States Postal Service

Gwendolyn J. Campbell
Executive Director
Federal Executive Board

Dear Federal Community:

“Take A Stand By Lending A Hand” is the 2007 CFC theme. It symbolizes what you, the Federal Community, has done to improve the lives of those in need. Once again, we are given the opportunity to feed the hungry, provide special education for the handicapped, environmental protection and community recreation programs, promote early detection, treatment and prevention of diseases and much more. In the past, you have made the choice to reach out. Your support has enabled many to receive benefit they would not have, without your generosity.

Your contributions are still needed, this year many of our co-workers have been affected by drought, floods, tornados, and fires. Contributing to local, national and international charities listed in this brochure is the first step in providing resources to those in need of assistance. This brochure is your resource for choosing a charitable organization. As you give, please consider using payroll deduction; it's simple and no money will be deducted until January 2008.

Thank you to those of you who continually contribute, as well as those of you who are new contributors to the Combined Federal Campaign. This year's challenge is great and with increased participation, we will have greater impact. “Take A Stand By Lending A Hand” and improve the lives of those in need, in your community and throughout the world.

William J. Mitchell
